Never Married

About myself

I am a tall, well groomed and considerate individual with a zest for life and a positive approach to everything that happens in my life. I am a computer science engineer and have had a successful career so far in the IT industry. My job as a Captain requires frequent trips to customer locations in the US. While I am religious I am not for wearing my religion on my sleeves. I like watching Bollywood movies and read books on business as well as fiction. I don't drink or smoke.

Expectation

I am looking for a down to earth, open minded person who appreciates the need to keep pace with changing times without forgetting our roots. She should be well educated and should be career oriented or choose to be a homemaker after marriage. I love my parents as present but will move to other cities or possibly out of the country in the near future.
